AI Overview

To take a screenshot of a webpage on a laptop, use the `Ctrl + Shift + P` shortcut in Chrome's Developer Tools, then type "screenshot" to see options like "Capture full size screenshot" or "Capture area screenshot". For a quick snapshot of the current screen, use your operating system's built-in tools, such as `Windows Key + Shift + S` (Windows) or `Shift + Cmd + 3` (Mac). [🔗](#)
